

KITE CRAFT

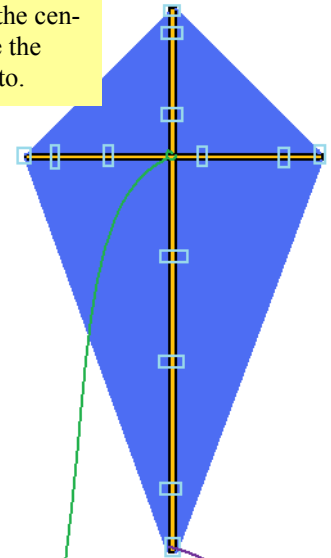

Take 2 bamboo sticks ensuring the sharp ends are cut off and that one stick is half the size of the other.
Get the children to tape the sticks into a cross shape.

Secure a piece of cotton thread (green in the diagram) to the central cross bar. This will be the tread the children hold onto.

Tape a diamond shaped piece of tissue paper to the sticks

Get the children to tape tissue paper bows onto the tail after you have secured onto the end of the bamboo stick.
